HEART & VASCULAR INSTITUTE
of EASTERN KENTUCKY

Gala

Saturday
February 25, 2023

Appalachian Wireless
Arena

SPONSORSHIP
AGREEMENT

Donovan Blackburn

President / Chief Executive Officer

Pikeville Medical Center (PMC) has been recognized as having one of the top heart programs in Kentucky. However, the goal is to be the leading heart and vascular program in the state.

PMC was one of the first hospitals in the United States to implant the Micra Leadless Pacemaker and the Watchman Device, both bringing technology to PMC that had previously not been available anywhere in the region. The Heart and Vascular Institute of Eastern Kentucky was the first in Eastern Kentucky to offer a procedure to install the TactiCath Contact Force Ablation Catheter for an irregular heartbeat that can lead to blood clots, stroke and heart failure.

The PMC Board of Directors and I are extremely proud of our comprehensive heart and vascular program. We are committed to making sure our highly-skilled specialists have what they need to perform advanced procedures and to eliminate long-distance travel for our cardiac patients.

In the past several years, PMC has been consistently ranked among the state's leading hospitals in both numbers and outcomes for heart and vascular procedures. Major investments in advanced technology and the recruitment of top cardiac specialists in their respective fields enable the Heart and Vascular Institute of Eastern Kentucky at Pikeville Medical Center to offer many cutting-edge procedures that were once only available in larger cities. In the vast majority of cases, PMC has delivered on its promise of keeping patients close to home for both the procedure and the recovery time that follows.

On behalf of the Pikeville Medical Center (PMC) Board of Directors, Executive Leadership Team, Physicians and staff we want to thank you for your continued support of this annual gala.

Most sincerely,

A handwritten signature in black ink that reads "Donovan Blackburn". The signature is fluid and cursive, with the first name and last name clearly distinguishable.

Heart & Vascular Institute

OF EASTERN KENTUCKY
AT PIKEVILLE MEDICAL CENTER

The Heart and Vascular Institute of Eastern Kentucky is recognized as having one of the top heart programs in Kentucky. This is evident by the many awards and certification this program has received.

The Institute was awarded Chest Pain Accreditation with PCI Version 7 by the American College of Cardiology (ACC). PMC was the first hospital in Kentucky and one of the first five in the nation to earn Cardiac Cath Lab Accreditation with PCI by the American College of Cardiology. PMC is also one of the nation's 225 hospitals to receive the American College of Cardiology's NCDR Chest Pain-MI Registry Platinum Performance Achievement Award. This just proves their comment to providing quality advanced heart care.

The Heart and Vascular Institute is comprised of multiple specialty services; General Cardiology, Invasive Cardiology, Vascular Surgery, Interventional Cardiology, Cardiothoracic Surgery, Electrophysiology, Cardiac Diagnostics, and Cardiac Rehab.

The Institute has new state-of-the-art Philips Azurion Cath Labs, Philips Instant Flow Reserve (IFR)/Fraction Flow Reserve (FFR), Intravenous Ultrasound (IVUS), Sync Vision Technology and so much more resources to give our patients a chance to be with their families and friends. Cardiac services are also offered at several offsite clinic locations the Grundy clinic, the Prestonsburg Specialty Clinic, South Williamson Primary Care & Specialty Clinic and the Specialty Clinic at Whitesburg.

L to R Bottom Row Drs: R. Handshoe, C. Reynolds, M. Antimisiaris, A. Nagabandi, R. Nelson. Center Row Drs: H. Nawaz, D. Halpin, P. Armstrong, M. Pally. Top Row Drs: R. Randhawa, D. Pattanshetty, R. Gurujal, A. Addasi.

Heart & Vascular
Institute

OF EASTERN KENTUCKY
AT PIKEVILLE MEDICAL CENTER

Leaders in *Minimally Invasive* Heart Surgery

Pikeville Medical Center is one of few hospitals in the region and in Kentucky with both the experience and technology to provide minimally invasive surgical approaches to heart care. Our surgeons perform minimally invasive bypass surgery, minimally invasive valve surgery, and minimally invasive atrial fibrillation surgery. These procedures use smaller incisions, which can mean less pain, shorter hospital stays, and a faster return to living life.

Place the care of your heart in our hands.
